

<b>PRODUCT:</b>	<b>Falcon PTZ</b>
<b>ITEM CODE:</b>	

## Introduction

This guide has been formulated to assist with the Falcon IP PTZ camera.

## Preset

1. With PTZ connected to PoE port on back of Viper NVR, login to NVR and browse to settings and PTZ (under camera menu)

2. Using the directional buttons, set the first preset position.
3. Click "Add" enter a preset name and number on the pop up window and click ok.

Preset	1
Preset Name	preset1

## Cruise

*When multiple presets have been saved, you can instruct the camera to cruise between presets in any order/speed.*

1. Under the PTZ menu, select "cruise". Select the drop down list at top right and click "+" symbol to add a cruise.

2. Name the cruise and select "Add preset", a pop-up window will appear, you can choose:
  - Preset name
  - Duration camera stays on each preset
  - Speed it leaves the preset at.
 Once chosen click add at the bottom.
